SUMMARY

Experienced programmer with two years of dedicated practice, demonstrating a keen aptitude for learning and mastering various programming skills. Recognized for adept problem-solving abilities and a passion for tackling complex challenges that others may find daunting. Proactively aware of personal potential and committed to continuous growth in the field of programming.

WORK EXPERIENCE

Software Intern

Feb 1 2024 - Feb 29 2024

During my tenure as a Web Development Intern at Code Alpha, I successfully completed a one-month internship where I undertook various tasks. This included the development of a chat GPT integration aimed at enhancing user interaction. Additionally, I designed and implemented a personal portfolio website to showcase technical skills and projects. Furthermore, I developed an expense tracker application to facilitate efficient financial management. Overall it was a great way to improve my skills.

PROJECTS

ChatGPT Integration

[Link to Demo](#)

The project involved creating a chat integration website using HTML, CSS, and JavaScript. The OpenAI GPT API was integrated to generate responses to user queries. After obtaining an API key, the website was deployed for users to interact with the ChatGPT-powered chatbot in real-time. Testing and iteration ensured functionality and usability were optimized.

Basic Text editor using Java

[Link to Demo](#)

The text editor program, developed in Java, consists of a main class responsible for initializing the application and launching the text editor. The TextEditor class manages GUI components and implements various functionalities including file operations, editing, formatting. Additional handler classes such as FileHandler, EditHandler are utilized to handle specific tasks within the program. Finally, the main method instantiates the TextEditor class to execute the application seamlessly.

Apple website frontend clone

[Link to Demo](#)

The project involved duplicating the frontend part of the apple's main website using HTML and CSS it was a fun frontend project, it helped me master my HTML and CSS skills.

Nutriipute

This is a food e-commerce website which is currently being developed, I am using Mern Stack to develop it. I am doing this website for a START-UP.

EDUCATION

2022 - present	Bachelor's in Computer Science at SRM University AP	(GPA: 9.15/10)
2022	Class 12th Andhra Pradesh State Board	(948/1000)
2020	Class 10th CBSE Board	(426/500)

SKILLS

Technical Skills	C/C++, JAVA, HTML, CSS, Javascript, ReactJS, MySQL, PHP, DSA, OOPs, Python, Node JS, ExpressJS, MongoDB
Soft Skills	Problem-solving, Leadership, Creativity, Adaptability, Critical thinking
